

Solid Brass Tree Mount Directional Fixture

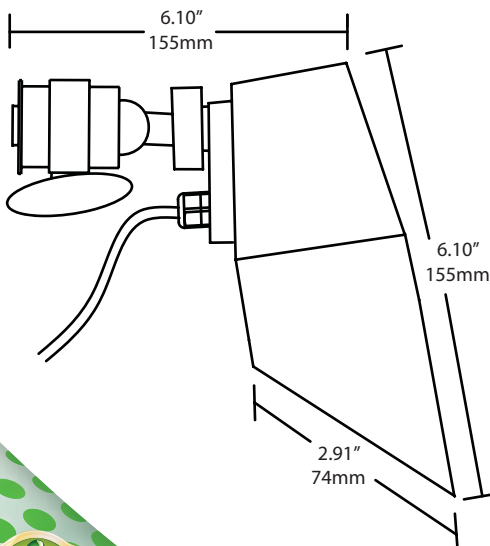

To light large or focused activity areas on patios, lawns, arbors, pools, and paths, Woody can be mounted high on trellises, eaves, gazebos, and mature trees.

By placing our weathered brass downlight high in a mature tree or a nearby wall and aiming it through branches or other foliage, you can recreate the appearance of moonlight filtering through tree branches onto the ground or structures below.

- Shortened, Adjustable Shroud to Prevent Light Glare
- Magnetic Quick-Disconnect for Easy Installation & Relamping
- Brass Ball Mount Allows up to 90° Angle for Precise Aiming
- Single Screw Mount for Easy Installation & Leveling
- Side-Mount Waterproof Wire to Stop Water Intrusion

360° Swivel Rotation
