

PRECISION ENGINEERED SPOT LUMINAIRES

Named after the native North American birch tree, Alder, Illumicare's copper upright, is truly "King of the Woods".

Whether you're lighting trees, statuary, architectural pieces, or other tall structures, Alder is an essential fixture in any outdoor lighting design. Versatile and powerful, Alder's heavy-gauge copper construction offers professional style without compromising functionality.

The fully rotatable shroud is fitted with a silicone o-ring gaskets to ensure a superior weather-tight seal in the harshest conditions. Alder's clear, tempered, shock and heat resistant glass lens offers superior optics while safeguarding the lamp and socket.

Constructed of one of the most durable metals in the landscape lighting industry, Alder's natural oxidation process offers an additional protective barrier, and results in a unique weathered finish to ensure the fixture blends seamlessly into your landscape design.
