

# Extendable Solid Brass Path & Area Fixtures

Herb, Illumicare's extendable brass path and area light, adds safety and functionality to any outdoor living space.

With an extendable brass stem, Herb offers a wide area light to help accent walkways, plant beds, path borders and even stairs. His clear glass lens protects the lamp and socket from water, moisture and debris.

By allowing for numerous beam spreads, Herb's adjustable settings give maximum design flexibility when choosing the perfect area and path light to grow with your design.

Herb is especially helpful in lighting changes in elevation, such as steps and deck edges, as well as highlighting plant beds, shrubs and flowering plants.

**Extends from 20" to 32"**
