

# Solid Brass Flood / Wall Wash Fixture

Heidi, our small brass wall wash fixture, creates an illuminated visual backdrop for your overall landscape design.

Easily hidden within small shrubs and other low foliage, Heidi is capable of creating dramatic washing, silhouetting and shadowing effects in plant beds, tiered hardscapes and other landscape features.

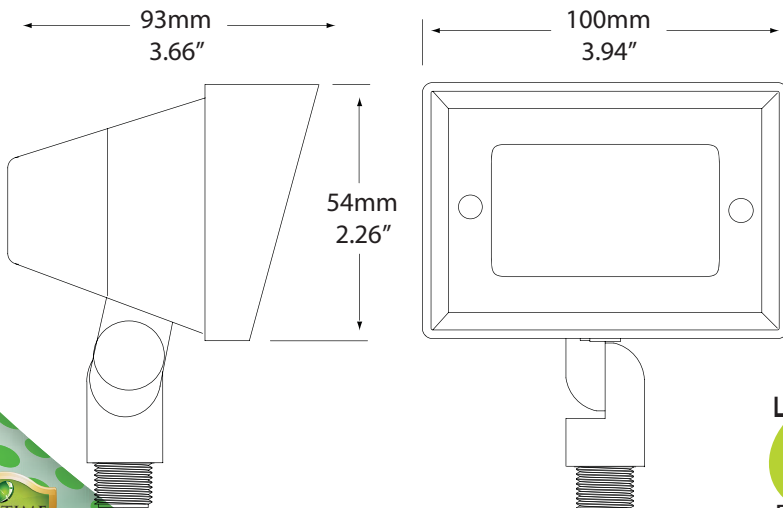

Placing Heidi at intervals - interplaying illumination with plantings and shrubbery - allows you to seamlessly integrate this fixture into your landscape to create dramatic detail and depth.

Heidi's frosted lens is perfect for casting light across textured surfaces, bathing protrusions in light while increasing shadows in recessed spaces.

## Specifications
