Outdoor WiFi Smart Socket
Affordable Home Automation

ILLUMICARE
GROUP LIMITED

Smart Home Automation for your Outdoor Spaces!

This multi-outlet, weather resistant plug allows you to control three outdoor devices with one smart socket. Designed to work with your low voltage lighting transformer, the Illumicare Outdoor WiFi Smart Socket provides remote control for lighting and other indoor & outdoor systems right from your smart phone, wherever you are!

Works with a 2.4GHz Wifi network without the need for a separate hub.

Set automatic daily timers and create on/off schedules for each device based on your daily schedule and preferences.

Made for outdoors, featuring an IP44 water resistant housing, ideal for use on decks, patios and in gardens to control lighting, fountains, pumps, outdoor audio and more.

Instantly convert one outlet into three smart sockets! Control all 3 receptacles individually or group them for unified control with a single tap.

Easy to use & install - just download the IllumiSmart App, connect your devices and easily control your lighting and other systems right from your smart phone.

Use the App to pair your Illumicare smart home products with Amazon Alexa or Google Assistant and control your home & yard by voice command.
