

## Professional Quality RGBW Color Lamps

**5 YEAR** Warranty

Illumicare's cutting-edge LED lighting range now includes the RGBW MR16, MR11, and G4 BI-PIN lamps designed to meet even more creative outdoor lighting needs. With their superior LED technology, these lamps provide exceptional illumination while maximizing energy savings.

The RGBW (Red, Green, Blue, White) color-changing capabilities allow for dynamic and customizable lighting effects, making them perfect for enhancing the ambiance of outdoor spaces.

With a color temperature range between 2200K and 5000K, Illumicare RGBW lamps offer a spectrum of colors for every mood, season or holiday, as well as choice of soft white light.

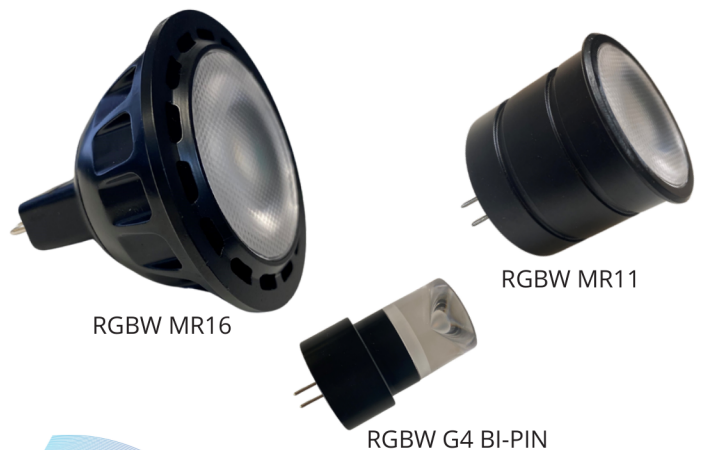

The RGBW Bluetooth repeater signal booster ensures uninterrupted and reliable connectivity with a range of up to 100FT. **The booster helps eliminate dead zones for a more seamless wireless experience.**

Download the free IllumiSmart App for easy-to-use outdoor lighting control.
